

MOHAMMAD TALHA

32, Bongshal Road, Dhaka +8801835064233 talhajubayer78@gmail.com linkedin.com/in/mohammad-talha

Highly analytical and detail-oriented Computer Science graduate with a strong passion for problem-solving, technology, and data-driven operations. Proven track record in developing fault-tolerant systems and leveraging data analysis alongside robust leadership experience in large-scale event administration and crowd coordination. Combines technical acumen such as advanced Microsoft Office, scripting, and system management with exceptional bilingual communication skills (English and Bengali). Exceptionally adept at managing stress, mitigating operational delays, and maintaining strict safety and regulatory compliance in fast-paced, high-pressure environments.

AREA OF EXPERTISE

Data Analysis & Visualization	Event Management & Coordination	Web Development
Team Leadership	Communication & Documentation	Programming
Database Management	Microsoft Office Suite	Shift Coordination

ACHIEVEMENT

Certified Data Analyst

- Completed Data Analysis certification from DataSolution360 Institute.

PROJECT

Notun Alo — Smart AI Waste Management & Recycling Platform

- Built a **dual-engine hybrid web platform** connecting households with recycling agencies through an **automated AI-powered agency assignment system** using a multi-factor weighted scoring algorithm.
- Engineered a **Gradient Boosting ML model** (Scikit-learn) for pickup ETA prediction, combined with **K-Means unsupervised clustering** to divide Dhaka into optimized operational service zones.
- Designed a **3-tier fault-tolerant failover architecture** ensuring zero user-facing downtime across full ML operation, degraded mode, and native PHP fallback states.
- Integrated a **Bengali-first conversational AI chatbot** (Claude API) with real-time user history access, enabling natural language pickup scheduling with **automatic database insertion on intent detection**.
- Implemented a **gamified reward system** with points-based redemption, badges, and leaderboard to drive sustained recycling engagement across urban households.
- Tech Stack:** PHP, Python, Flask, MySQL, Scikit-learn, JavaScript, HTML5, CSS, Claude API

Reward-Based Recycling Platform

- Designed and developed a platform for **waste pickup scheduling** with reward point allocation and agency assignment.
- Built a **reward-based e-commerce system**, enabling users to redeem points for eco-friendly products.
- Implemented **admin monitoring and management features** for pickups, orders, rewards, and system logs.
- Technologies:** Python (Flask), MySQL, HTML5, CSS

Exam Management System

- Developed a dual-portal system (**Admin & Student**) to streamline exam management.
- Enabled **admins** to securely log in, manage questions (add, edit, delete), and view student results.
- Built a **student portal** for login, profile updates, taking exams, and instantly viewing results.
- Tech Stack:** Java, MySQL

VOLUNTEER EXPERIENCE

Event Admin – MIND SHIFT-2025

Jul 2025 - Aug 2025

- Oversaw event coordination and administrative tasks.
- Facilitated communication among teams to enable seamless implementation.
- Supervised participant administration and event coordination.

Event Admin – Idea Hunters 4.0

Sept 2024 - Jan 2025

- Managed event and administration.
- Led communication between teams to ensure smooth execution.
- Oversaw participant management and event scheduling.

Volunteer – ULAB Communication Office**Jan 2024 - Dec 2024**

- Assisted in organizing and managing university communication events.
- Helped with content creation, documentation, and event coordination.

Organizing Secretary – MISHAS (College Organization)**Jan 2018 - Jan 2019**

- Led event planning and execution for college activities.
- Managed team coordination and communication.

EDUCATION

University of Liberal Arts Bangladesh**Sept 2022 - Present**

Bachelor in CSE

- Current CGPA more than 3.45.
- Successfully completed some Projects on Java, Python, MYSQL and Frontend.

Tamirul Millat Kamil Madrasah**2019-2021**

Arabic Medium.

- Finish Higher School Certificate in 2021 with 5.00 GPA.
- Got Champion twice in cricket tournament.

Tamirul Millat Kamil Madrasah**2017-2019**

Arabic Medium.

- Finish Senior School Certificate in 2019 with 5.00 GPA.

ADDITIONAL INFORMATION

- **Languages:** Bengali (Native), English (Professional Fluency), Hindi.
- **Technical Skills:** Microsoft Suite (Word, Excel, PowerPoint, Power BI), Programming (HTML5, CSS, Java, SQL, Python), Video Editing(CapCut).
